

Community Helpers

“Who Am I?” Game
by Lisa Markle

Thank you for purchasing this fun community helpers activity! I hope you enjoy playing this game with your class!

This game can be used a few different ways according to your needs! It can be an interactive read-aloud game for a preschool class during circle time. You can let each child hold one community helper and hold them up when you read their "Who Am I?" card. Or it can be used as a reading comprehension matching activity for a literacy center in an elementary classroom! After playing the game you can have your students color the black and white printouts included!

Check out my shop for more fun activities! Thank you and enjoy!
